February 10th 2022

PANEL II

15:00 - 17:00 CET

Our event is for teachers, educators, and everyone else who is interested in lectures delivered by our experts on Thursday, February 10th 2022, 15:00-17:00 CET. We are happy to announce our conference hosts will be journalists Justyna Suchecka and Krzysztof Horwat.

15:10 CET

Małgorzata Rosalska

“Competences of the future as an element of career resources”

Digital competences are one of the most valuable career resources - it is worth considering how to develop and effectively use them. How to prevent career failures and what competencies and abilities should be strengthened today to make young people succeed on the job market?

15:40 CET

Dariusz Martynowicz

“A lesson online. How to engage students remembering that they are human beings?”

Some people say that pandemic is traumatic, and for some of us - also kids and adolescents - it is a liminal, initiation, but also existential experience. Uncommon circumstances demand, without a doubt, unusual actions from teachers. What can we do and how can we act during online classes to engage students and, at the same time, keep track of their emotions?

16:20 CET

Magdalena Śniegulska

“If we could design school from a scratch. The value of emotions in teaching and learning”

When we read the School with Class report on tutoring at school, and we go through quotes from students and teachers, we start to ask ourselves: what is the role of tutors at school nowadays? Young people need, above all, a sound adult with whom they can build a safe relationship. How to build those relationships? What should we know about students and ourselves to do it right?

Join us on our [YouTube channel!](#) We will provide simultaneous interpreting from [Polish](#) into [English](#) of all three lectures from our experts.
